

Most Invigorating Body Contour Treatment

Wonder Bamboo Signature treatment

Sexy New You

Rediscover a shapely you with Slimming Sanctuary's indulgent Wonder Bamboo Signature treatment, which promises to help tone your body in one session.

A proven technique from France, this breakthrough anti-cellulite and inch-loss bamboo therapy stimulates key pressure points in the body for a firming result.

To prepare your body for optimal absorption of the slimming oils, therapists use a smoothing exfoliation scrub before applying a 36-radiant point pressure to unblock lymph nodes. This encourages maximum elimination of excess impurities.

The session includes the Body Shaper treatment, which helps reduce the appearance of cellulite so your skin looks smooth and toned. The Body Purity treatment, on the other hand, flushes out excess fluid and improves blood circulation.

In one intense Wonder Bamboo Signature treatment, you'll get a slimmer body that glows with health. The Slimming Sanctuary is at:
